TRAINING MODULE | CURRICULUM DESIGN

TRAINING HOURS / DAY	DURATION	MAX. PARTICIPANTS
5	2 days	30

CONTENT

- Traditional and contemporary models of curriculum design
- Principles of good course design
- Drafting of course outcomes
- Importance of assessment and feedback
- Various teaching and learning strategies

METHODOLOGY

Training will be delivered in the form of workshop and delivered with the use of multimedia tools like powerpoint presentation and audio-videos. Throughout the training participants will be encouraged to participate in discussions, group activities and reflections. Participant will review their existing courses and make necessary changes to enhance the course or learn on how to design a new course.

WHO SHOULD ATTEND?

Any academicians who want to learn how to design or refine a course or curriculum.
